ABSTRACT

The present paper throws light on the status of foodgrains production in India. In this paper I have studied the status of foodgrains production in India of eight major Indian foodgrains namely Rice, Wheat, Jowar, Bajra, Maize, Ragi, Barley and Gram. Data is collected for sixteen agriculturally rich states of India namely Andhra Pradesh, Assam, Bihar, Gujrat, Haryana, Himachal Pradesh, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal. Also, the growth rate is calculated for total foodgrains production of India from 1970-71 to 2014-15.

KEYWORDS: *Climate Change, Agriculture, Foodgrains Production, Growth Rate*
